Why are you applying for Financial Aid? (150 words minimum required)

I am a student and not an earner. Currently I am pursuing CSE undergrad. My family annual income ranges from $2000 - $2500. My father is the only one in my family who is earning. It's impossible to make both ods meet with this minimal income. Thankfully I got a government scholarship which helped me to get an admission into college. I give tuition to some school students near my college campus so that I can help my family in this condition. So the financial aid is really needed as that I can continue my studies and get a good job and improve my present and future life. If I add up my course it will make even harder for my parents to pay. Sir I need this course for my CV and for increasing my knowledge and skills about this topic.

How will taking this course help you achieve your career goals? (150 words minimum required)

Since I am pursuing CSE undergrad project are needed to build portfolio and to build a worthy project is a big task. I want to complete this course due to my curiosity and also that I can put a good CV to get applied to a job. This course will boost my job prospects after graduation from my institute. A verified certificate will attach a credibility to the certificate I receive from this course. I plan to to complete all assignments on or before time. Learning front-end development will help me achieving my programming journey a lot. This is the best basic needed thing in a programmer career. As this boosts my skill level. This would definitely help me to create a flyover on my hurdles. I would be grateful if I get the opportunity to do it and help me in achieving my dreams and passion as in this competitive world even this is very less what others know and to stand out in a crowd I would need this so that I can gain succeed in my dream career that is full stack development.

Help Us Improve

We're always looking for opportunities to improve our financial aid program for learners like you and we'd love your feedback. This information will not affect your ability to receive financial aid.
Would you consider using a low-interest loan to pay for your courses?

○ Yes   ⦿ No

If you answered no, please help us understand why.

Sir, the financial status of my family is not too good to pay the loan amount. We already have a lot of debt in the bank and my parents are paying it on regular basis. It would make their life even harder to add a new loan over them. Sir, I don't want to put any pressure over them. Sir, it would be great help me to get a good job and help my family if I am able to get this course.
